

The Forbes

Songwriter/Producer/Mixer Collective

The Forbes are a London-based production team made up of three brothers – 5ive (Sadiki), 6ixVI (Dakarai), and 7even (Rasa; previously part of The Heavytrackerz). All boast impressive individual CV's, having had hits with the likes of Stormzy, Skepta and Nines. But after working on several projects together, they've realized that combining their skills makes for an unstoppable team.
